Mounts and furniture for flat TV screens

ERARD®

ERARD®

ESSENTIAL **ACCESSORIES**
FOR AUDIO VIDEO COMPONENTS

ERARD had been making antenna accessories since 1961 when it entered, in 1974, the TV mounts and stands market with the first TV stand for CRT TVs.

Since then, the company has continued to grow and has developed its offer based on integrated solutions for audio visual equipment for both professionals and individuals with three brands:

ERARD – wall mounts, TV stands ; antenna accessories
ERARD Connect – connection systems
ERARD Pro – audio visual equipments for professionals

Today, the company is renowned for the quality and reliability of its products, key to the success of its entire production.

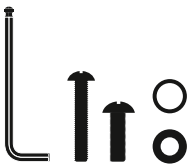
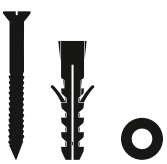
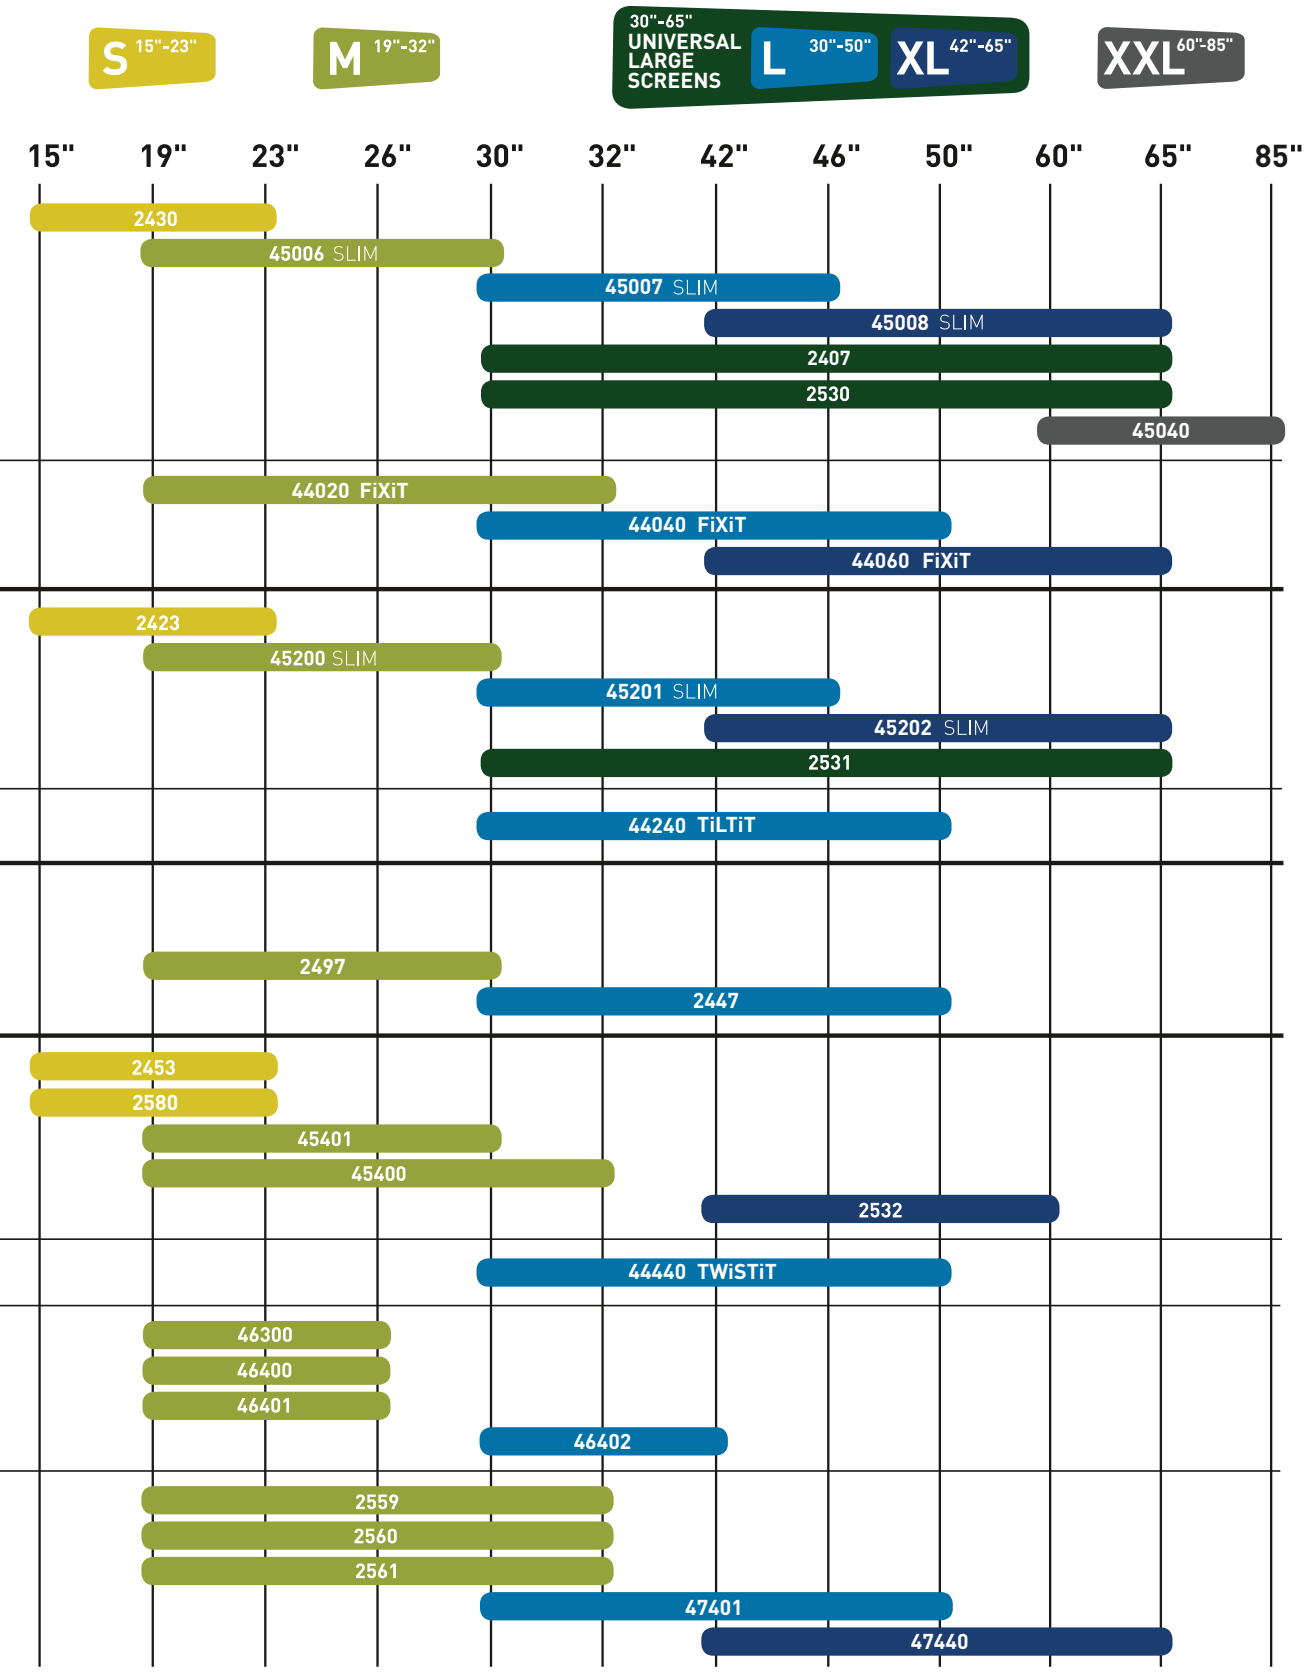
IMPORTANT ALL ERARD MOUNTS INCLUDE:



- A screw and bolt hardware kit to attach screens to mounts



- A screw and bolt hardware kit for solid building materials to attach the mount to the wall



... and confirm your choice with the help of product description pages*

*The above chart is based on the technical features of LCD, LED and Plasma screens currently available on the market and mount features specific to ERARD products. These technical features are given in detail in the catalogue's product descriptions.
Users are asked to validate their choice by taking into account dimensions of the screen attachment system and the maximum mount capacity shown in kilogrammes.

Wall mounts for LED screens

Movik®

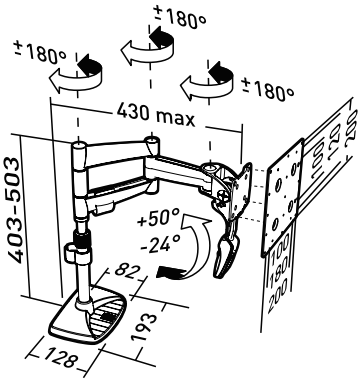
10 YEAR GUARANTEE

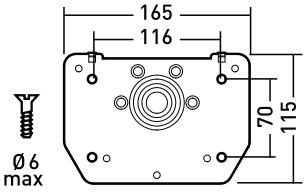
Mounts for computer screens

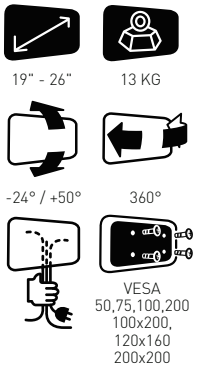
Movik® desk and under-cabinet mount is a comfortable solution to fix small screens onto your desk or beneath a shelf. Its handle permits to move the screen without touching it. There is also an automatic locking system to block screen position as soon as the handle is released.

Ref. 002562 EAN 318528 002562 6

- 2 mounting systems:
  - Plate screwed in place (under-cabinet and desk configuration)
  - Double clamp (desk configuration)
- Screen height may be adjusted using the telescopic arm
- Patented handle for continuous adjustment of the position of the screen
- Automatic locking system to block the screen position as soon as the handle is released
- Cable management using the clamp incorporated into the arm
- Cable-way pin providing a safety system to block adjustment and a cable management system







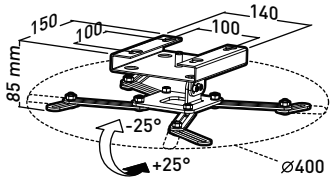
Under-cabinet configuration

Desk configuration

The adjustable arm (from 7 to 90 cm) of the Square® video-projector mount permits to install the projector more or less close to the ceiling. Thanks to its universal attachment, Square® is compatible with most of the video-projectors installed in an inverted position.

Ref. 002427 EAN 318528 002427 8

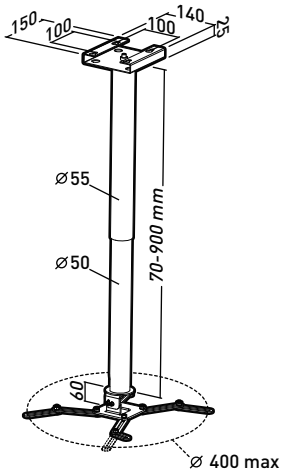
VIDEO-PROJECTOR CEILING MOUNT WITH SWIVELLING PLATE



Ref. 002431 EAN 318528 002431 5

VIDEO-PROJECTOR CEILING MOUNT WITH ADJUSTABLE ATTACHMENTS

- Suitable for video-projectors to be fixed to the ceiling in an inverted position
- Image axis can be aligned with the mounting axis
- Ceiling mounting plate with independent swivel adjustment of tilt and horizontal settings
- Cables can be concealed inside the tubes
- Adjustable extension leads from 7 – 90 cm
- Screws, bolts and mounting spacers provided



Anti-theft solutions

Anti-theft mounts are available in fixed and tilting/swivelling versions for small and miz-sized screens up to 15 kg.
They are equipped with an exclusive, patented screen-locking system and versions 2402 and 2404 are supplied with 1 (2402) or 2 (2404) custom keys.
The screen position may also be blocked using these keys. The 2586 an ultra-thin mount with a 20 mm offset.
Since the attachment plates and the screen are separate, they make the assembly easy and safe.
A complete hardware kit is provided with the 4 models.

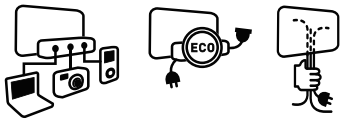
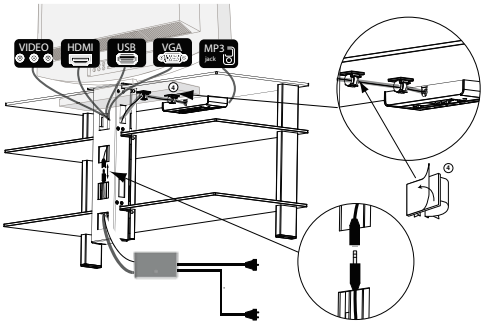
Connectik®

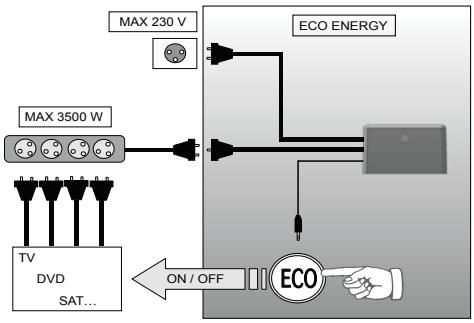
Ref.	035480	EAN	318528 035480 1	CONNECTION BOX
Ref.	035481	EAN	318528 035481 8	CONNECTION BOX + ECO ENERGY SYSTEM

Connectik® is a remote connection box for making connections via a box placed in or on your furniture.
A metal clip for fixing the box to a 6 – 8 mm thick glass shelf is also available. Connectik thus gives easy access to 5 sockets: VGA, HDMI, USB, RCA, 3.5 mm Jack.
Connectik® is also available with an ECO ENERGY system – ref 035481 – to centralise on / off switches for your equipment (screens and peripherals) thus reducing energy expenditure when equipment is on standby.



- Black plastic box
- Elastomer connector cover
- 2 m connection cable included for peripherals
- Cable guidance system to the column





Infrared sensor*

Ref.	727997	EAN	370011 727997 5	

With the infrared sensor, as many as 4 peripherals installed inside a closed piece of furniture can be controlled.
Perfectly unobtrusive, a single infrared receiver is needed for all your Home Cinema equipment.
Installation is easy and quick and requires no modifications to existing equipment and no change of remote control.

- 5V DC power supply
- 4 infrared transmitters
- 1 infrared plasma proof receiver
- LED indicating power on and signal reception
- Infrared frequency: 38 KHz
- Receiving distance: 8 m
- Length of IR receiver cable: 1.40 m
- Mounting adhesive

* Price list : see Erard Connect

Light motion®

Ref.	002557	EAN	318528 002557 2	COMPLETE SET
Ref.	002558	EAN	318528 002558 9	KIT COMPRISING 2 ADDITIONAL STRIPS

Light Motion® is an ambient lighting system whose colours vary with sound intensity to give added film effect – extra 2-strip kits may be combined to the system comprising 6 strips.
The remote control adjusts the variation of colours, intensity and speed and is capable of memorising 4 lighting programmes for a lighting system reducing visual fatigue.

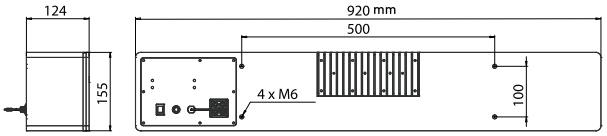
Colour spectrum

- Low energy consumption: 9W/pair of ramps
- No heat emission
- Remote main supply block (110-220V, 50-60Hz) and 1.50 m long electric cable supplied
- 3 connectors for main sockets (UK, Europe, US)
- MOVE&LIGHT® remote control provided with 2 LR 03 batteries
- Modular system for up to 6 LED strips
- LED strip length: 380 mm

TV Sound Booster

Ref.	035482	EAN	318528 035482 5

TV Sound Booster is a sound source to be placed on the unit, attached to – screw inserts provided on the back of the box – or integrated into the unit.
It amplifies and boosts sound from your flat screen and an additional source.



x 2

- Maximum amplifier output power; 60 watts RMS
- Stereo, 2 broadband 2 x 15 watt loudspeakers with 1 integrated 30 watt woofer (woofer diameter 13 cm)
- Amplifier with 2 stereo channels: 2 x 15 Watts and bass frequencies 30 Watts
- High-performance aluminium vent to cool amplifiers.
- Component quality and durability guaranteed
- Space-filling "Surround" sound
- Onset buttons and remote control adjustment of volume, treble and subwoofer. Activation of Surround effect and input selection: TV, AUX, MP3
- Screen display for controlling adjustment levels
- Standby mode On/off switch behind the sound booster
- 220 Volt power, 1.50 m cable
- Plug and play MP3/PC in front via Jack / Jack 3.5 mm cable
- Connect TV screen audio signal and DVD (CD, VCR) via 2 double RCA cables
- Brushed aluminium front
- Front display screen showing acoustic tuning levels
- Removable black loudspeaker cover
- Rigid wooden box with charcoal powder finish

Best value for high end screens

Elegant and refined - Stileo is a new ERARD column stand range. Also available with a compartment, each model can hold a screen of 60 kg and the same load of peripherals. Both of the models are equipped with an incorporated cable management solution (see details on pages 48-49).

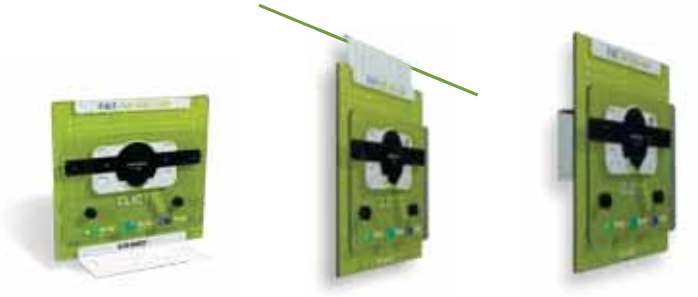
Merchandising solutions

ERARD offers a variety of merchandising solutions based on wall mounts for showcasing your point-of-sales activity.

FiXiT, TilTiT, TWiSTiT Merchandising

The *do it* range holds a special place in our merchandising offer. Both innovative and attractive, it deserves tools which are up to its performances.

Packaging



On a counter

Hangs on a shelf

Drilled on a wall

POS *do it* range

Applik®, Allya® II Double Packaging and Movik® Double

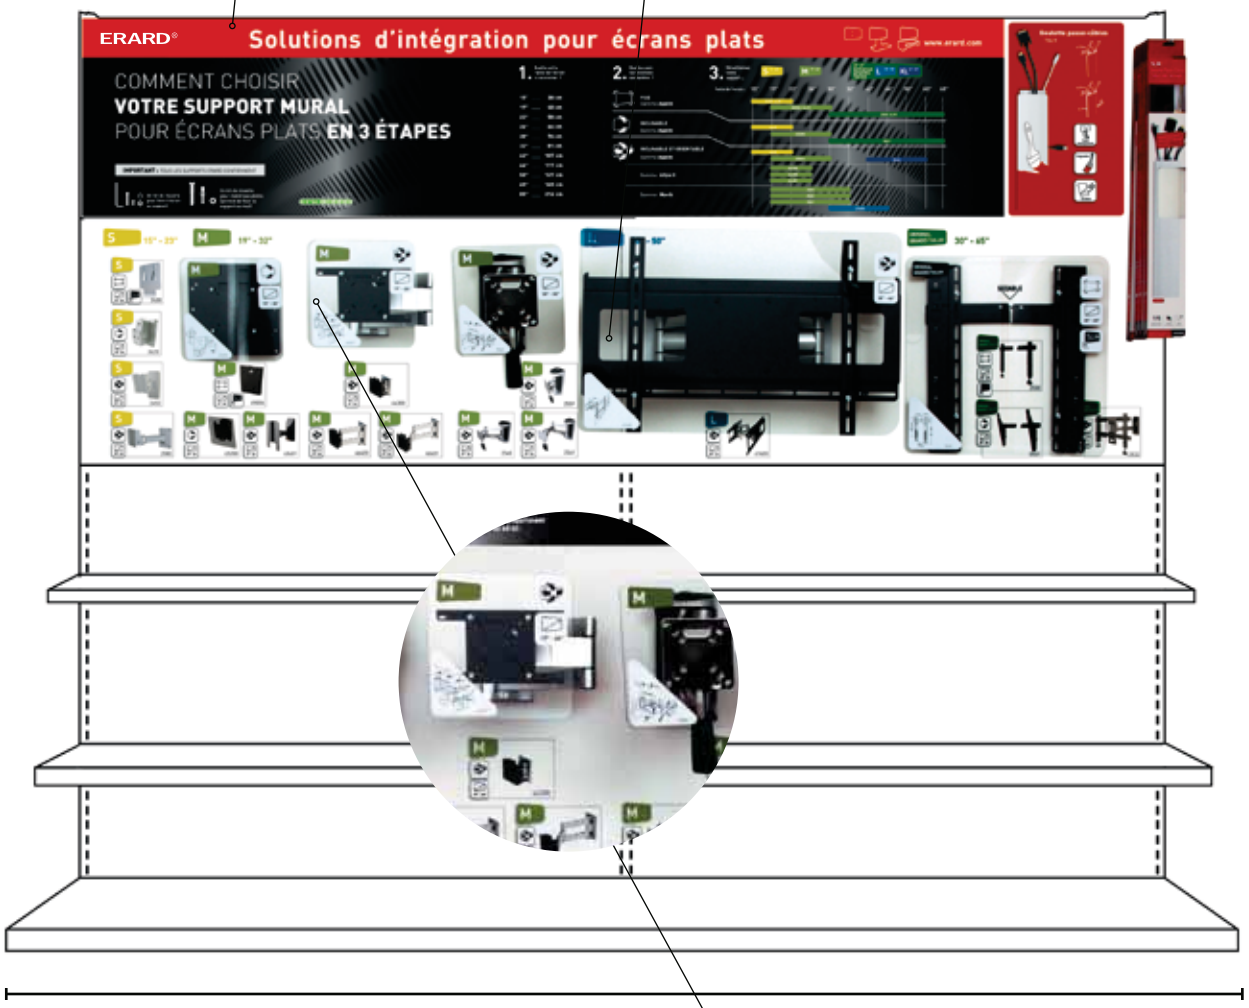
Applik®, Allya® II Double and Movik® Double now enjoy NEW packaging designed in line with our NEW graphics. Attractive and eye-catching, it is also instructive, using pictograms for quick identification of the mount's main features.

Selecting your wall mount entails weighing your needs against constraints which may prove difficult without the help of a department manager. ERARD has therefore designed a summary table to help end-users find what they need quickly and make a choice.

ERARD POS for wall mounts may be adapted to the shop's graphic charter (under certain conditions)

There are three steps in the selection process:

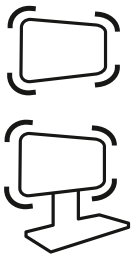
- Note down screen size
- Select the desired mount functions (fixed, tilting, tilting-swivelling)
- Select the desired mount among those proposed on the basis of steps 1 and 2



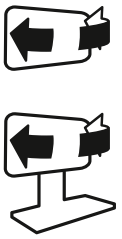
The ERARD POS stands are available in three sizes: 0.60 m, 1.33 m and 2.66 m (height from 1.45 m overall).
Presentation in 2,66 m size.

As for the mounts, they are fixed to partitions. They are fitted with plexiglass screens for a more realistic appearance without concealing the mount.
A pictogram system in the background promotes speedy identification of the mount's key features.

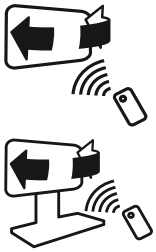
Key to product functions



Fixed

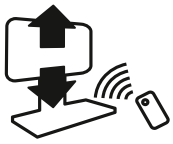


Swivelling
Manual right / left screen swivelling for mounts and furniture.
To watch TV wherever you are in the room.



Twist®
Motorized right / left screen swivelling for mounts and furniture.
To watch TV wherever you are in the room by controlling your screen from distance

Tilt
Manual screen tilting.
To adjust your screen for better visibility.



Lift®
Motorized remote-controlled up / down screen movement for furniture.
To watch TV wherever you are in the room by controlling your screen from distance.

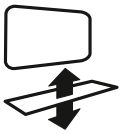
Cable management
So that your flat screen's appearance is not spoilt by a mass of cables, they are brought together and concealed inside and/or behind the stand.

Connectik
In its role as "multimedia platform", the front of the stand incorporates a specific connection strip for easy connection of roaming devices: video cameras, MP3, digital cameras, PC etc.

Light motion®
Ambient lighting for a total audio visual experience.

Sound System
To amplify and boost your flat screen sound.

Systeme Eco Energy
To reduce energy expenditure generated by the standby mode.

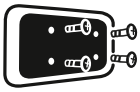


Height adjustable shelf
To adjust your shelves to the size of your peripherals.

Depth adjustable shelf
To adjust your shelves to the size of your peripherals.

Integration in a corner
For perfect integration of furniture into your room.

Maximum screen weight



VESA
Standard characterising mounting hole pattern on the back of the TV.
Check your selected solution is compatible with this.
